Empowerment Survey: Spring 2014 (use the back, if you need more space)

1.	Which of the five-fold ministries highlighted in Ephesians 4:11-13 — apostle, prophet,
	evangelist, teacher or shepherd — do you feel drawn to? Why?

2. If what specific ways do you want to be developed in that kind of ministry? And why? Often, our spiritual *gifts* will interact with these ministries in ways that will create a unique interplay. For example, you might want to use music to do the work of a prophet (which would feel different than music as an evangelist), or administrative skills to do the work of an apostle. If so, offer some explanation here as well.

3. What kinds of contexts produce the most *passion* for developing in this way? And why? Think in terms of either geography, organizations or people groups. For example, you could desire to be developed in this way for your neighborhood (geography), your workplace (organization), or those who love skateboarding (people group).

4. What specific resources, if any, would you need to be developed? How would they help?
